8.	Full-time Enrollment by Level and Sex in Private Colleges . . .	38

HE 006 128

Thirteenth issue in a series published annually

by the

DEPARTMENT OF FINANCE

NOTE

The Private Colleges reported in this issue of "Total and Full-time Enrollment..." closely follow those listed in the "Directory of California Colleges and Universities" published by the California Postsecondary Education Commission. That publication includes only those schools accredited by the Western Association of Schools and Colleges, the Accrediting Commission for Business Schools, or in the case of professional schools, the respective professional organization. Because the enrollment breakdown by class level is incomplete for some private schools, the summary of class levels will not add to the state total. Two schools of significant size, Pasadena College and Woodbury College, do not report enrollment for Fall, 1973. To the extent of their combined enrollments, this report is noncomparable with the Fall 1972 issue.

Definitions of enrollment categories and level of students remain unchanged from previous issues.
